

WHY CAN YOU PAY WITH WASTE HERE?

**Resource or waste?
It makes a difference!**

**RESOURCE = REUSABLE
OR RECYCLABLE**

**WASTE =
no longer good
for anything**

Did you know that most of what we throw away (80–90%) isn't waste at all – it's raw material?

Separate collection means we sort things according to materials (e.g., paper, plastic, metal) so that they can be recycled.

What happens to the trash?

!90%

In Hungary, 90% of our rubbish ends up in landfill, where it piles up into huge mounds, and if they are big enough, they cover them up. What we don't see, doesn't exist! The problem is that a lot of things are buried there that are excellent raw materials for others. (see the circular economy panel)

You can pay with waste at Ladybird Farm:

**With all kinds
of PET bottles**

Aluminium cans

**Paper
(newspapers and
cardboard boxes)**

These are valuable wastes that are worth money! We credit the value of the waste up to 10% of the entrance ticket price!

What does this mean in numbers?

Our guests bring a total of 2–3 tonnes of waste to us every year.
This is the weight of an SUV.

**Be an environmental
hero too! Bring the
waste you collected
at home and trade it
for a discount here!**
